Nationality: Nigerian | **Right to Work in the UK**: Yes

Professional Summary

Dynamic IT professional with 15+ years of experience in IT infrastructure, systems support, and secure web solutions. I have successfully designed, deployed, and maintained reliable technology environments for clients in healthcare, academia, and enterprise sectors, including managing servers, networks, user access, and cybersecurity protocols. My technical foundation (CCNA, Linux, PHP, DNS/SSL management) is matched by a strong commitment to user support and system reliability. I am now seeking to apply my hands-on IT expertise within the NHS, where I can contribute to maintaining resilient, secure, and patient-focused digital services. Passionate about continuous learning, I am eager to support clinical and administrative teams through dependable, behind-the-scenes technical support.

Core Competencies

- IT Infrastructure & Systems Support: Network troubleshooting (TCP/IP, DNS, DHCP), Linux server environments, workstation setup, printer/peripheral support, remote assistance
- System & Data Management: User account administration, access control, data integrity audits, backup/recovery protocols
- Security & Compliance: SSL/TLS implementation, firewall configuration (Sucuri), malware scanning, adherence to confidentiality and information governance principles
- Technical Proficiency: PHP (for WordPress customisation and debugging), cPanel, Microsoft Office (Word, Excel, Outlook), email hosting, Cloudflare
- Web & Digital Solutions: WordPress development, Open Journal Systems (OJS), technical SEO, site performance optimisation
- Soft Skills: Clear communication with non-technical users, ability to prioritise workloads, adaptability in fast-paced settings, attention to detail

---

Professional Experience

IT Consultant
Pelrox Technologies Ltd 2008 – Present

- Provide end-to-end IT and web support to healthcare and academic clients, including the West African College of Physicians and African Neonatal Association.
- Manage critical infrastructure: configure and maintain DNS records, deploy SSL certificates, and administer Linux-based hosting environments, ensuring sites remain secure, trusted, and operational.
- Deliver first-line technical support for hardware, software, email, and connectivity issues, often for users with limited technical knowledge.
- Develop and maintain secure WordPress and OJS platforms using PHP for custom functionality, user workflows, and payment integration.
- Perform regular system audits, apply security patches, and implement backup strategies to protect data integrity.
- Train clients on CMS usage, basic cybersecurity hygiene, and content best practices, improving their long-term self-sufficiency.

IT Consultant
Vodahost Enterprises | 2019 – Present

- Advise clients on technology decisions, from domain registration to hosting selection, ensuring choices align with security, performance, and usability needs.

IT Consultant
3Kanix Logistics Services | 2021 – Present

- Apply data monitoring and system reliability practices, skills transferable to NHS workforce or rostering system support.

General Manager
Cyber World Dot Com Ltd | Dec 2003 – Dec 2007

- Designed early websites using Dreamweaver and BlueVoda; later migrated clients to WordPress for improved maintainability and SEO.
- Managed local network setups and provided foundational IT support to small businesses.

Key Projects

- Journal of African Neonatology (JAN) – https://janeonatology.org
  Built and maintain a secure Open Journal Systems (OJS) platform used by medical researchers across Africa. Implemented user authentication, article workflows, and PHP-based enhancements, while optimising for academic discoverability and mobile access.
- West African College of Physicians Portals – https://wacpcoam.org & https://proposel.wacpcoam.org
  Developed responsive, secure membership and proposal systems. Ensured fast load times, proper indexing in Google Scholar, and reliable uptime, critical for professional credibility.

Education & Certifications

Coding Programme Professional -inview
ITOL Recrut ITonlinelearning Recruitment, **United Kingdom**— 2025 on going

Architectural Portfolio (Tailwind CSS) | *October, 2026*

- Developed a high-fidelity, multi-page responsive website utilizing Tailwind CSS and the Play CDN, adhering to strict "Brutalist" design principles.
- Engineered complex, asymmetric layouts using CSS Grid and Flexbox, strictly avoiding absolute positioning to ensure robust, responsive document flow.
- Implemented a custom design system using Tailwind's @theme directive for semantic color management and smooth, transition-based hover states.
